

## **INSTRUCTIONS FOR COMPLETING THE SCHOOL HEALTH REPORT**

### **STEP ONE: Collecting Data**

There are three areas that are included in the School Health Report: vision screening, hearing screening, and immunization verification. The School Health Report is required for all schools (both public and private) that are accredited by the Indiana Department of Education. **This report cannot be submitted per School Corporation, as one report must be submitted for each accredited School Building.**

1. Vision Screening (IC 20-34-3-12)
  - a. Testing of Visual Acuity
    - i. Requires testing of near and far vision
    - ii. Required for the students enrolled or transferring into:
      1. Either kindergarten or grade 1
      2. Grade 3
      3. Grade 5
      4. Grade 8
      5. Any student suspected of having a visual defect
    - iii. School administrators may assign the best qualified person in the school system or school health services to supervise the eye screening tests
  - b. Testing using the Modified Clinical Technique
    - i. Required for students in either kindergarten or grade 1
    - ii. Must be performed by an ophthalmologist or an optometrist
    - iii. Schools unable to locate an ophthalmologist or an optometrist to assist with this requirement may, before November 1, request a waiver from the Indiana Department of Education
2. Hearing Screening (IC 20-34-3-14)
  - a. Required for:
    - i. Students enrolled in:
      1. Grade 1
      2. Grade 4
      3. Grade 7
      4. Grade 10
    - ii. A student who has transferred into the school corporation
    - iii. A student suspected of having a hearing defect
  - b. Can be completed by technicians and assistants appointed by the school corporation
3. Immunization Verification (IC 20-34-4-5)
  - a. Required for every child enrolled at an accredited Indiana school

# Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

- b. Each school shall keep an immunization record of the school's students
- c. Requirements are determined by the Indiana State Department of Health
- d. Students may attend school if any one of the following circumstances apply:
  - i. Student has all of the required immunizations
  - ii. Student has a medical exemption on file with the school
  - iii. Student has a religious objection on file with the school
  - iv. Parent of the student has furnished a written statement and a schedule, approved by a health provider or the local health department, for the completion of the remainder of the immunizations

Note – Documents regarding school immunization requirements can be found on the IDOH CHIRP website. These documents can be found at the following website: <https://chirp.in.gov/>.

## **STEP TWO: Opening an Account or Obtaining a Password**

Each school must designate an individual to complete the School Health Report. This designated person will have the role as the "DOE Online Corporation School Health User". This designated person can be the school nurse, a school secretary, a school health aide, or a school administrator. Whomever the school district designates as the person to enter the data into the School Health Report, this person must create an account and obtain a password to the "DOE Online" System in order to complete the report.

**This password only needs to be obtained one time and will remain the same from year to year.**

To set up a DOE Online Account:

- Please click [here](#) to complete the form to create a DOE Online Account.
- Upon submitting the form, you will receive an email confirming the submission.
- Upon approval, you will receive an email with a username/password. The email will come from "noreply@doe.in.gov". (Be sure to add the noreply@doe.in.gov address to your address book/safe sender list so that this email does not go to your spam or junk mailbox.)

# Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

To obtain or reset your username and password:

- Contact the DOE Help Desk and submit a ticket.
- Click [here](#) to submit a ticket and write in the "Description" box, that you are "Requesting a DOE Online Password Reset for access to the School Health Report".
- If you are unable to submit a Help Desk Ticket, you may call the Help Desk at (800) 527-4931 or (317) 232-0808.
- You will receive an email for a username/password reset. The email will come from "noreply@doe.in.gov". (Be sure to add the noreply@doe.in.gov address to your address book/safe sender list so that this email does not go to your spam or junk mailbox.)

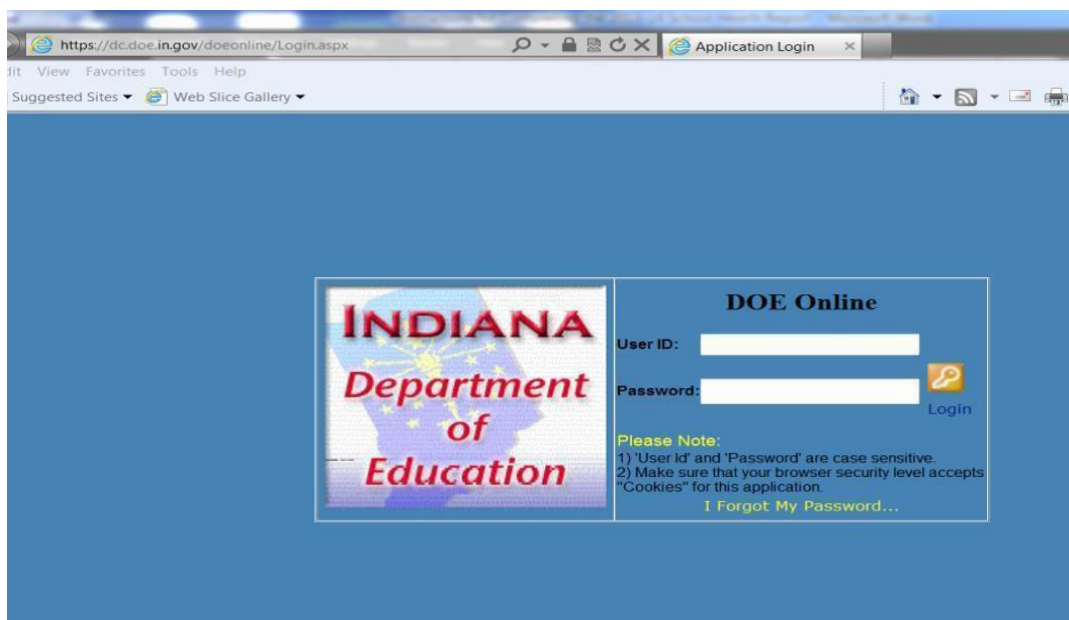

## **STEP THREE: Completing the School Health Report**

Please ensure, at the beginning of the second semester, that the designated person has a password and is able to log into the DOE Online system. The link to the DOE Online site can be found [here](#). The designated person should be able to enter the DOE Online site but will not be able to access the School Health Report until the report opens on March 1<sup>st</sup>.

Once a school has collected the data required for this report, has designated a person to complete the report, and this person has a password to the DOE Online, the report can be submitted anytime between March 1 and June 15.

THE PROCESS FOR COMPLETING THE REPORT INCLUDES:

1. You should see a picture that looks like the one below. This is the DOE Online site where you would enter your user ID and password.

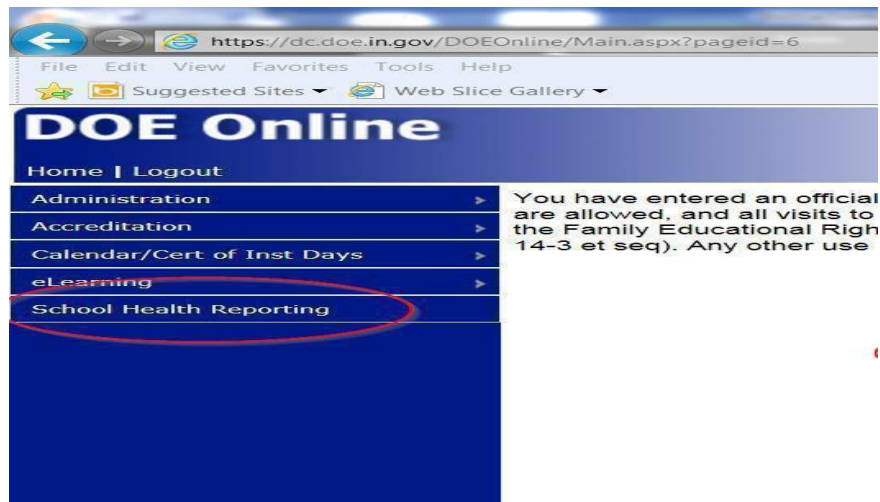

# Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

2. Log in and find the “School Health Reporting” tab located on the left.

3. Click on the School Health Reporting tab to open the report. The report should look like this:

## Notes Regarding the Mandatory Fields in PART ONE:

- You can locate your corporation and school name by using the drop-down menu
- If the name of your corporation does not appear in the drop-down menu, your school is not required to submit your data to the IDOE, and you should instead report your vision, hearing, and immunization data to your building administrator
- You will not be able to move forward in the report until you have completed all of the mandatory fields
- Please type in your name, title, phone number (must include area code, be 10 numbers long and no dashes) and e-mail address
- Once you have completed these Mandatory Fields, click on the “Save PART ONE” button. This will permanently save these fields for you, and it will allow you to move to PART TWO of the report
- If you do not enter all of the Mandatory Fields, you will see a red star appear below the box that you have not completed correctly
- Below is an example showing you that all of the fields are mandatory

# Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

## Example of Mandatory Fields not being completed:

The screenshot shows the 'SCHOOL HEALTH DATA ENTRY' form for the 2015-2016 academic year. The form is titled 'PART ONE: Fill in ALL Boxes'. It contains several fields: Corporation Name (dropdown), School Name (dropdown), Person Reporting (text), Title of Person Reporting (text), Phone (text), and Email (text). The 'Person Reporting' field is highlighted with a red box and an arrow pointing to it from a text box that says: 'If you need additional assistance - place your cursor over this site and hover for a moment. A text box with additional information will appear.' Another red box with an arrow pointing to the 'Save PART ONE' button contains the text: 'You will not be allowed to move forward or see the next section of the report until you enter all of the mandatory fields. If you see a \* under a box - this indicates that it is a mandatory field and must be completed.'

Note - If you place your cursor over the “Part One: Help?” link, a text box with these directions will appear

### Part One: Help?

PART ONE – Please complete all of the fields below and click on the SAVE button. If you have properly completed all of the fields, PART TWO will open for you to enter your information. If the name of your corporation does not appear in the drop down menu, your school is not required to submit your data to the IDOE, and you should instead report your vision, hearing, and immunization data to your building administrator.

4. Complete all of the Mandatory Fields and then click on “Save PART ONE”.

The screenshot shows the 'SCHOOL HEALTH DATA ENTRY' form for the 2015-2016 academic year. The form is titled 'PART ONE: Fill in ALL Boxes'. It contains several fields: Corporation Name (dropdown), School Name (dropdown), Person Reporting (text), Title of Person Reporting (text), Phone (text), and Email (text). The 'Person Reporting' field is filled with 'Sally Sunshine', the 'Title of Person Reporting' is filled with 'School Nurse, RN', the 'Phone' is filled with '5553247890', and the 'Email' is filled with 'ssunshine@gmail.com'. The 'Save PART ONE' button is highlighted with a red oval and an arrow pointing to it from a text box that says: 'Click on this button to save the Mandatory Fields for PART ONE and move onto PART TWO.'

# Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

5. PART TWO of the report should open and now be visible for you to see and complete.

K	# Religious Objection	0	0	0	0	0	0	0	0	0	0	0	0	0	
L	# Medical Exemption	0	0	0	0	0	0	0	0	0	0	0	0	0	
															Submit Data

- In order to save any data you have entered into the chart, you must click "Submit Data".
- You may change, edit, or update your submitted data at anytime by clicking "Submit Data".
- Your last submitted data before the closing date will be used by IDOE as final report.

## Notes Regarding the Chart:

- You will only need to complete the chart for those columns that apply to your school. If you do not have students in a particular grade level, these columns of the chart should be left blank.
- **Line A (# Total Students)** – enter the total number of students per grade in your building (number of students currently enrolled at the time you complete your report).
- **Line B (# Vision Tested)** – enter the total number of students per grade level that you screened for near and far vision (include all students that your school conducted a vision screening on, even if the student has since left the school).
- **Line C (# Passed Vision)** – enter the total number of students per grade level that passed the vision screening.
- **Line D (# Failed Vision)** – enter the total number of students per grade level that failed any part of the vision screening. For grades K or 1 this would include those students that failed either the near and far vision screening or those that failed the MCT screening. A failure on any part of the vision screening would constitute a referral to a health care provider. For students in grades 3, 5 and 8 a failure would include those that failed either the near or far vision screening. This line would be the total number of students that you referred to an eye professional for further evaluation.

- **Line E (# Borderline Vision)** – enter the total number of students per grade level that you *did not refer*, but that did not pass the vision screening (for example students you plan to rescreen or students with glasses). This category is for those students you are just not sure about (ones you plan to watch, ones who might have misunderstood the directions, or ones you plan to rescreen). **Note - schools may not have any students that they consider borderline.**
- **Line F (# Hearing Tested)** – enter the total number of students per grade level that you screened for hearing (include all students that your school conducted a hearing screening on, even if the student has since left the school).
- **Line G (# Passed Hearing)** – enter the total number of students per grade level that passed the hearing screening.
- **Line H (# Failed Hearing)** – enter the total number of students per grade level that failed the hearing screening and were referred to a health care provider.
- **Line I (# Completed Immunizations)** – enter the total number of students per grade level, who are currently enrolled in your building, that have the required immunizations per the Indiana State Department of Health’s Immunization Requirements.
- **Line J (# In-Process Immunizations)** – enter the total number of students per grade level who have a written statement and a schedule, approved by a health care provider or the local health department, for the completion of the remainder of the required immunizations. Included in this section would be any students that do not fit into any of the other three categories of complete, religious objection or medical (i.e. - those that are non-compliant, those that do not meet the required time interval between immunizations, and those that are in the process of obtaining the required immunizations at a future date).
- **Line K (# Religious Objections)** – enter the total number of students per grade level who have any immunizations for which the student has a written religious objection on file at the school. Included in this section would be any students who have even one immunization for which a religious objection has been filed (i.e. – student has all of the immunizations required for grades K-5 but has a religious objection on file for those required for grade 6).
- **Line L (# Medical Exemptions)** – enter the total number of students per grade level who have a written medical exemption on file at the school. Included in this section would be any students who have even one immunization for which a medical exemption has been filed.
- **To check that you have completed the chart correctly, the following rules apply.** *Your numbers may be off by a few due to student enrollment or withdrawal and that is ok as long as the numbers are within +/- 5 of your total enrollment for a give column. To check your math – your lines should add up for each grade level as follows:*

# Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

- Lines C + D + E = B
- Lines G + H = F
- Lines I + J + K + L = A

- If your numbers do not add up correctly, you will receive the following note:

Your form contains errors, your data will not be submitted until the errors listed at the bottom of the page are corrected.

OK

- Please check the information listed in red below the chart to tell you what errors you need to correct in order to properly submit your data (an example is listed below).

- In order to save any data you have entered into the chart, you must click "Submit Data".
- You may change, edit, or update your submitted data at anytime by clicking "Submit Data".
- Your last submitted data before the closing date will be used by IDOE as final report.

**You must correct the following errors:**

- # Total Students under column 3 is not equal to the sum of # Completed Immunizations, # In-Process Immunizations, # Religious Objection, and # Medical Exemption under column 3.
- You must fill in # Completed Immunizations.

8. Once you have completed the chart or you have entered the data you wish for that particular session, click on the "Submit Data" box on the bottom right corner of the chart. Your data will be saved, as well as submitted. **The "Submit Data" button will serve as your SAVE\_ and your SUBMIT button.**

Total Number of Students Tested from K - 12														
	K	1	2	3	4	5	6	7	8	9	10	11	12	Total

														Submit Data

## Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

9. You should see a box such as the one below each time you click on the “Submit Data” button.

10. The “Submit Data” button will serve as your **SAVE and your SUBMIT** button. You may click “Submit Data” multiple times as this is the only way you can update or save your data. IDOE will only have one copy of your report – whatever is the last, most recent data you entered and submitted/saved will be kept on file. You may revise your data at any time before June 15<sup>th</sup>. Simply type over your old data to revise it and click the “Submit Data” box. Your report will then be updated to reflect the most current information you have submitted.

- In order to save any data you have entered into the chart, you must click “Submit Data”.
- You may change, edit, or update your submitted data at anytime by clicking “Submit Data”.
- Your last submitted data before the closing date will be used by IDOE as final report.

### OTHER NOTES:

- If you exit this site or DOE Online times out and you have not hit the “Submit Data” box on the bottom right corner of the chart, the data you have entered into the chart will not be saved.
- To enter your data, click on the box you want to enter data into and type in your number. You can hit your tab button to go to the next box, but you cannot use your arrow keys to go up and down to other boxes.
- Any box in a row that you leave blank, will be automatically filled in with a “0”.
- You do not need to erase the “0” in front of a number – it will automatically erase the “0” in front of any number that you enter once you submit your data.
- If you do not complete the following mandatory fields: the MCT question, row A and row I, and all of your columns do not add up correctly - you will not be able to save your data and the notes in red on the below picture will appear for any of the mandatory fields that you have not completed or any errors that need to be corrected.
- Your data will not be saved until you click the “Submit Data” button. **The “Submit Data” button will serve as your SAVE and your SUBMIT** button. You may click “Submit Data” multiple times as this is the only way you can update or save your data. IDOE

# Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

**will only have one copy of your report – whatever is the last, most recent data you entered and submitted/saved will be kept on file.**

- o In order to save any data you have entered into the chart, you must click "Submit Data".
- o You may change, edit, or update your submitted data at anytime by clicking "Submit Data".
- o Your last submitted data before the closing date will be used by IDOE as final report.

You must correct the following errors:

- # Total Students under column 3 is not equal to the sum of # Completed Immunizations, # In-Process Immunizations, # Religious Objection, and # Medical Exemption under column 3.
- You must fill in # Completed Immunizations.

## EXAMPLE of a K-6 Grade School Health Report completed properly:

If you have students in Kindergarten or 1st grade, which grade did the licensed eye professional test using the Modified Clinical Technique (MCT)?

☐ Kindergarten ☐ Waiver Granted for Kindergarten ☐ 1st ☒ Waiver Granted for 1st ☐ No Students in grades Kindergarten or 1st

If MCT testing completed, the number of students tested for MCT in grades are:

Kindergarten:

1st:
